### Introduction of GESE

This series of twelve progressively graded tests is designed for speakers of languages other than English and sets realistic objectives in listening to and speaking with other English speakers. The grades take the learner from a very low level of proficiency (Grade 1) to an advanced level of proficiency comparable with first-language ability (Grade 12). All learners make progress at different rates, and a graded system ensures that at every stage of their development there is an opportunity for them to mark that progress. There is a Trinity graded examination in spoken English appropriate to all learners, whatever their level of ability in communicating in English.
